PolyMem

more healing • less pain®

Using PolyMem dressings is as easy as 1, 2, 3.

First time only:

- 1 Clean wound per facility protocol
- 2 Place appropriate dressing on wound
- 3 Change when exudate reaches wound margin

Dressing changes:

- 1 Remove old dressing
NOTE: Do not disturb the wound bed
- 2 If infected, treat accordingly
- 3 Place new dressing on wound site

PolyMem and Shapes® wound care dressings are not made with natural rubber latex. This document is meant for general information. See individual product instructions for use. We recommend that you consult your payor organization with regard to its coding and reimbursement policies.
